

SNOW FAILS TO KEEP GLADIATORS OFF THE ROADS

Neither Willard Nor Moran Shirks Outdoor Work Despite Fact That Roads Are Almost Impassable.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
New York, March 16.—Although the snowstorm has made the roads in this vicinity almost impassable in places, neither Jess Willard nor Frank Moran shirked road work today. Early this morning each covered nearly three miles at a fairly good pace and neither showed any signs of fatigue.

In the gymnasium this afternoon Willard eliminated the wrestling part of his program but increased his boxing bouts by taking on an extra man, going through nine fast rounds altogether. A short session at the pulleys was his only other exercise. The bouts were lively. "Whiter" Allen, who will meet Jack Dillon at the Brooklyn club for ten rounds next Saturday night, was the added starter. The champion handed Allen a few hard knocks. Rodel, the boxer, boxed three rounds with Willard and Hemple and Monahan followed, each going two rounds.

Monahan in his second round smashed a right swing into Willard's cheek and it stung so that the Kansas retaliated with a right to the face which started blood from Monahan's nose. The fight was no longer in the scheduled three-minute limit. Four minutes almost had expired when Monahan shouted: "Oh, there, has that watch stopped working?" and then "Time" was called. Willard seemed to enjoy the fast work this afternoon and did not exhibit any signs of weariness.

At Moran's headquarters in Westchester the Pittsburgh man virtually repeated his work of yesterday, although he had made up his mind to take a day off. Five fast rounds with his three sparring partners were all Trainer Lewis allowed Moran after a brief turn at the punching bag and some rope skipping. Moran turned the scale at 202 pounds after he had a rub down and was awaiting the dinner gong. Tomorrow and Saturday he intends to take about the same amount of exercise but Sunday is to be a day of rest.

FLOURNOY LEFT NO DOMESTIC STOCK, SO WIDOW ASKS MONEY

Because M. W. Flournoy, former vice president of the First National bank, had no cow, goat, or sheep Mrs. Jeannette Flournoy, his widow, will take in lieu of this stock \$75 in household goods, according to her attorneys, North & Mabey. A petition containing this statement was filed yesterday afternoon in the probate court.

And because Mr. Flournoy left no household goods she will take \$200 in household goods, and also "other articles of household goods and kitchen furniture necessary for the widow of the value of \$200, making a total of household goods and kitchen furniture allowed the widow as exemption of \$775," according to this petition.

Mrs. Flournoy also would select the proceeds of life insurance not made subject to debts, amounting to about \$2,000, and her husband's salary as officer of the First National bank, the First Savings Bank & Trust company and the Occidental insurance company for sixty days prior to his death, which she believes is of the amount of \$2,000, according to the petition.

The court is asked in the petition to set apart to Mrs. Flournoy property which would be exempt from execution and which the court is required by law to set apart to her, it is alleged.

Try This If You Have Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This dissolves it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon apply it at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and itching of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

Seated for the illustrated lecture to be given at the Crystal theater Monday evening by George K. Worcester will be placed on sale this morning at Matson's bookstore, and the interest that has been shown in the event indicates that there will be a large attendance.

The fact that Mr. Worcester has spent much time in the Philippines and has made a special study of the islands, and the people inhabiting them, coupled with the further fact that moving picture films which have never been duplicated and which show in a most striking manner the daily life of the Philippines will be shown, makes the announcement of the lecture one of importance to all American citizens who are interested in the problem of what shall be done with our oriental possessions.

Mr. Worcester will make an address this afternoon to the students of the high school, and on Tuesday morning at assembly he will talk to the students of the University of New Mexico. His subject is one of most absorbing interest and his utterances are sure to make a deep impression.

SONORA PEOPLE NOT ANGERED BY INVASION

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Nogales, Ariz., March 16.—News of the crossing of the United States troops into Mexico was received quietly by the Mexican people of Guaymas, Hermosillo, Magdalena and other towns along the west coast on the line of the Southern Pacific railway of Mexico, according to Americans who reached Nogales tonight.

Dr. W. Woodman, of Douglas, Ariz., who returned from Hermosillo, said manifestos were issued there by the Carranzista authorities telling of the arrangements for the pursuit of Villa and urging the population to remain calm, he said. Lieutenant Colonel Garcia, in command of the garrison, assured American residents a special train to the border would be placed at their disposal any time they desired it.

George J. Richardson, manager of the Mexican National Trading company of San Francisco, said that the news was taken calmly by both newspapers and population of Guaymas.

Bandits Kill Five Men; Carry Off Girl

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
El Paso, Tex., March 16.—Sam Hess, an American employed on the Carranzista ranch in Chihuahua, reached here today with a story of a hair-breadth escape from Villa bandits after he had watched them murder five Mexicans and carry off a young girl as their prisoner.

Hess, who has only one leg, was looking after some horses and mules in the yard of the ranch last Sunday when the Villistas appeared. They immediately shot down one of the ranchers. Hess hid under a mound of hay in a barn and from his cover saw the other four members of the ranch family shot down as they tried to flee from the house. The bandits then collected all the horses on the place and having secured their girl prisoner, rode away.

For three days Hess wandered about the country trying to find some way of reaching the border. He finally was able to flag the Madera Lumber company's special train and arrived safely in Juarez.

AMERICANS FROM TORREON REACH TEXAS BORDER

Consul Williams Says No Overt Act of Hostility Had Occurred, but He Thought It Prudent to Leave.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Laredo, Tex., March 16.—Traveling the entire distance to box cars, Consul C. A. Williams and forty-five other Americans arrived here late today from Torreon, Mexico, having left the Mexican city, they said, because they were convinced it was the best thing to do. Their departure, they said, was not caused by any overacts on the part of Mexicans or failure on the part of the de facto government officials to offer protection. Eleven Americans joined the party at Monterey. There were a number of American women in the party, including Mrs. Williams. Consul Williams said he would remain at Laredo or near the Mexican border pending instructions from the state department. He refused to discuss his leaving Mexico.

Other members of the party said a few unmarried American men remained in Torreon but that they had voted to leave because Torreon was considered to be in Villa territory and therefore unsafe for Americans. They believed the Carranza garrison was strong enough to hold the city of Torreon against a Villa attack.

Food conditions at Torreon, also, it was said, influenced the decision to leave as the city was depending almost entirely upon supplies from the United States. Durango city, it was stated by several of the American refugees, is cut off entirely from all manner of communication with the outside. There are said to be at least twenty Americans there. The American colony feared Torreon might be similarly isolated by Villa adherents.

SOCIALIST MEMBER CAUSES DISTURBANCE

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Paris, March 16 (7:19 p. m.)—The harmonium of the chamber of deputies was disturbed for a while today by a speech made by Leon Accambray, socialist, who complained that parliament had not sufficiently exercised its right to control over the military situation.

Paul es Chanet, president of the chamber, interposed the objection that it was not the time to make such statements when "blood is running in the veins." Mr. Accambray, after quoting the precepts of Napoleon, demanded the appointment of a secret committee to report on the military progress at the front.

After numerous cries of "enough," from all parts of the chamber, Deputy Chanet put an end to the event by moving the suspension of the sitting.

MISS MITZI AS "POM-POM"

Miss Mitzi Hajos is a most fetching little comedienne who has danced her way through musical comedy. She is at present appearing as "Pom-Pom" in a play by that name which has just had its initial performance in New York.

Worth Knowing.
Just try drying your wool blankets on curtain stretchers, if you wish them to retain usual length and width.

Brass or copper may be easily cleaned by rubbing with a wet, soap rag dipped in powdered bath brick. Polish with a soft cloth or newspaper. To get dust out of crevices in window sashes, baseboards, etc., when cleaning house, try using a paint brush of good size. A hidden store of dirt will reward your efforts for a cloth cannot reach all the corners.

Burning the fingers can be avoided by equipping the metal knobs on pot and kettle covers with good sized cork, wired on with bits of picture wire.

Cut rounds of wax paper and put under the centerpieces on the polished table. This will prevent the linen adhering to the polished surface, as often happens from hot dishes.
